HAY W 100 the REMARKS .- The produce market this week has been very quiet, the receipts not justifying large transactions. In prices, there has been a steady aivance in Corn and Rye, but Wheat and Flour have remained unchanged. The receipts of Flour have increased, the principal supplies coming from the Valley, vin the Manassas Gap Railroad .-During the week, sales were made to shippers of Union street Superfine at \$5.061, but the advance has not been sustained, and the market closed at \$5, frm. Sales of straight brands by the dray load to city consumers at \$5.061 (4.\$5.121. In Sxtra and Family, there has been but little doing, and quotations are without change. There has been a considerable falling off in the receipts of Wheat: farmers being now engaged in "putting in" their Fall crops, are not sending their Wheat to market, and transactions in the article are moderate. Prices have ruled about the same all the week, viz: 1206c 130c. for white of fair to good quality, and 11262117c. for do. red. Some lots very good white and red were made at 131c. for white, and 119c, for red. No choice white or red reported sold, and prices for that description are cominal. There were sales on 'Change yesterday at 122(d.130c. for white, and 117c. for red of fair and good qualities. Corn has been very scarce, and prices have been steadily advancing, the market closing firm with sales of white at 92c. The receipts are light, and the quantity held in store is small. Rye is very brisk, and has advanced. We quote last sales at 78c. Oats are inactive, and we have no change to note in prices. Sales at 35@ 36c for bright. Corn Meal is active, with a fair supply, and owing to the advance in Corn, prices are tending upwards. Seeds have been dull, and the market closed quiet. We quote Timothy at \$2.371(a \$2.50 wholesale and retail, and Flaxseed \$1.4064\$1.42 wholesale. Wool is unchangedcommon unwashed at 23@25c.; do. washed 30@ 3 c.: Fleece washed 28@33c.; Merino 45@50c.-Sumae is quiet, with light receipts-no change in quotations. THE NEW ARRANGEMENT OF THE HOUSE HALL - The press is already speculating over the question whether the House of Representatives will or will not promptly rescind their late excellent order causing the removal of all desks from the body of their ball. We are among those who credit the majority with sufficient firmness of purpose to withstand all growling of portions of the body against the excellent change. If the new arrangement be persevered in for one month, it will found highly conducive to the far better discharge of the business of the House, than the bers to encourage their abstraction from the matters and things they should, legitimately, attend to while the House is in session. If all the members are compelled, when in the hall, to attend only to what may be officially before the House, they will very shortly become as opposed to wasting time in the delivery of speeches for Buncombe, as the English House of Commons notoriously are; coughing or frowning down twaddlers, and, themselves, with as little ceremony as the seasons." legislative bore is coughed down in the Engish Commons hall.

planations after explanations from the Chair or members to enlighten other members whose attention has been momentarily abstracted from the current business as to the particular condition of that business, and as to the effect of votes for or against current "questions;" a fruitful source of delay .-Though much time that under the new arrangement bids fair to be economized by the making such explanations, &c., immense sums are voted away improperly, for which action the excuse almost invariably given by members not credited with a disposition to squander the public funds, is that they misunderstood the effect of their respective votes when giving them.

In the matter of making and printing at the cost of the treasury their voluminous and trashy speech reports, &c., the actual money saving through dispensing with the desks. will prove enormous; while the increase of actual business consummated with even shorter daily sessions than heretofore, will soonrelieve the House from the popular odium resting upon them in connection with their failure to devote time to the due investigation and disposal of private claims, which they have up to this time devoted to the further ance of this and that honorable members's designs on Buncombe, will very shortly revolutionize the standing of the House in public estimation. We are emphatically for "no desks in the Hall," as being sure ere long to place every individual member on his true and proper level, compelling each to be content with occupying only so much of the time of the House as he can occupy to the public, rather than his own personal advantage. - Washington Star.

Captain Travis is a native of Alexandria, and his numerous friends here will be pleased at this exhibition of the commendable qualities for which they have ever given him credit.
